Planning Application RU.23/0104, Forge Oak, Guildford Road, Ottershaw – ONF Comments

Dear Planning,

I refer to the above Planning Application which we recommend should be **approved with the following condition applied.**

1. We note that the Heritage statement does not take account of any physical impact to the adjacent forge LLB. As we understand this, the forge building is of non-standard construction and the foundations thereof are less than that for modern properties. We would therefore urge planning officers to ensure that conditions are set sufficient to protect the property from damage.
